Gennaro Rascato

Software Engineer at Teoresi Group | Cloud & Backend specialist
Torre Annunziata, Campania, Italia

Riepilogo

Software Engineer specialized in backend technologies, proficient in Java with a strong expertise in Spring Boot. I have solid skills in cloud integration, with deep knowledge of Microsoft Azure and AWS. Skilled in database management, familiar with MySQL, PostgreSQL, MongoDB, as well as Firebase and Firestore. Knowledgeable in serverless architectures and cloud solutions.

Currently working in an international environment, collaborating with companies from around the world

Esperienza

Teoresi Group

Software Engineer

gennaio 2024 - Present (1 anno 9 mesi)

Napoli, Campania, Italia

I am currently engaged in an international setting within the transportation sector, focusing on the development of microservices for the Digital area at Hitachi Rail STS.

I extensively use Azure for the cloud solutions with Kubernetes and Java Spring Boot

SI2001

Full-stack Developer

marzo 2023 - gennaio 2024 (11 mesi)

Battipaglia, Campania, Italia

As a Full Stack Consultant, I work extensively with a range of technologies to deliver end-to-end solutions. On the backend, I utilize Java and Kotlin along with frameworks like Spring Boot and KTOR. For data persistence, I'm skilled in using MySQL and PostgreSQL, coupled with ORM tools like Ebean and Hibernate to streamline database interactions. On the frontend, Angular is my go-to framework for creating dynamic user interfaces. Additionally, I'm experienced in deploying and scaling applications on Google Cloud Platform, using containerization tools like Docker and orchestration with Kubernetes

Formazione

Università degli Studi di Salerno

Laurea Magistrale LM, Sicurezza Informatica · (settembre 2023 - settembre 2025)

Università degli Studi di Salerno

Laurea triennale, Informatica · (settembre 2019 - luglio 2023)

Liceo Scientifico Pitagora B.Croce

Diploma scientifico · (settembre 2014 - settembre 2019)
